During this watercolor workshop we will paint a variety of subjects using plenty of water and pigment to exploit the wonder and intrinsic beauty of watercolor. We will focus on the importance of developing interesting shapes, value contrast and patterns, edge variety, and more!

Additional areas of discussion will include:

- Simplifying the scene
- Working from reference material
- Use of artistic license
- Developing strong compositions
- Atmospheric perspective
- Visual language
- And the sheer joy of painting

Each day I will offer a full demonstration in the morning with explanation and Q&A along the way. Workshop participants are welcome to work on the same subject or from reference material of their choosing. Afterward, participants will paint for the remainder of the day and I will be available for one-on-one assistance and to provide additional mini-demos as necessary. At the end of each day I will facilitate a critique with opportunity for each participant to share their day's work and to get thoughts and feedback in a casual and friendly setting.
