

Delaware Watercolor Society Proudly Presents

“Design for Success”

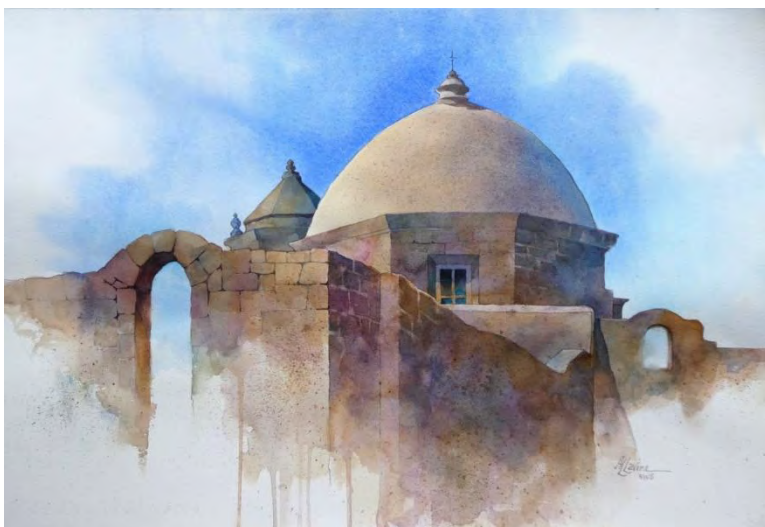

With Alexis Lavine

Enjoy this workshop from the comfort of your own home via Zoom.

October 11, 12, 13, and 14, 2021

10 a.m.–12 noon and 1 p.m.–3 p.m. each day

Alexis believes that superb DESIGN is essential in making art that excels. An unremarkable painting can be elevated into one that is powerful and engaging ... with the application of strategic, thoughtful, and dynamic design! During this workshop, we will learn the concepts of design and how to integrate them into our paintings ... to take our paintings to that next level. We will learn how to identify what we want to describe, express, and communicate – and how to manipulate our lines, shapes, values, and colors, to

achieve this ... in other words how to design our paintings for the best results! We'll explore a variety of subjects and see how we can turn them into exciting, emotional, unique works of art – with the right combination of creative design... and, as always, solid drawing, effective painting techniques, and imagination.

Alexis believes in the power of design so strongly that she recently gave up her decades-long devotion to plein air painting to devote herself to studio work, where she could take more time to design her very best paintings! Teaching is one of the most important things she does. She loves to share her passion for art by guiding others to reach

their creative goals, and she teaches with enthusiasm, commitment, passion, humor, and kindness. She has taught watercolor for over two decades, from California to the Caribbean. She has seamlessly adapted her classes to the Zoom platform and believes that her online workshops are as good as, and in many ways better, than in person classes. Honored as one of Watercolor Artist Magazine's "Ones to Watch," she is a signature member of the National Watercolor Society, Watercolor Honor Society, Transparent Watercolor Society of America, and others. Her paintings reside in collections throughout the country and overseas, and they can be found in galleries from the Mid-Atlantic to the Virgin Islands.
